Dear Eric,

Thank you very much for your kind hospitality at the Currency Museum (it is a great achievement that is very informative and will be enjoyed by many people). I enjoyed the opportunity to get a chance to know you and see some of your great treasures. Your knowledge and research is astounding.

I particularly enjoyed the opportunity to see the currency redemption sheet and the Gear first edition books. When I got home, I looked at my Gear book. It is a 1868 edition in a green hard cover. The illustrations are different from those in yours. If you would like, I can try to make a copy for you.

If you come across the fractional currency box, please send me an email. It sounds fascinating. I will try to arrange a side trip with one of my business trips in the area to see it.

Thanks again for the great hospitality and the help in getting the initial books bound.

Art Paradis
